BURTON

STREET PACKS

CITYLINE & COMPUTER

A.

DURABILITY

Why Burton Street Packs? Because we know the importance of being able to rely on your back in the deep backcountry – and we bring those same standards to our Street Packs. With YKK™ zippers, Duraflex buckles, and strong body fabrics selected specifically for taking abuse whether it's on the hill or in the city, we've got you covered.

B.

FUNCTION

We've been making backpacks for over 30 years and know a thing or two about fit, so it only made sense that we took everything we've learned, and turned it into a collection of packs that can handle your daily grind. Look for pockets in all the right places, back panels that feel like your favorite hiking pack and full laptop protection.

C.

STYLE

Forget other brands that offer up street packs that all look the same. Our unique aesthetic ties into our snowboarding lifestyle with an urban twist. Materials like X-Pac™ Sailcloth, lining prints featuring Geishas and bomber high tensile strength nylon ripstops give way to a full array of opportunities to express yourself.

D.

PRODUCT DETAILS

Separate, padded laptop compartments with neoprene cradles.

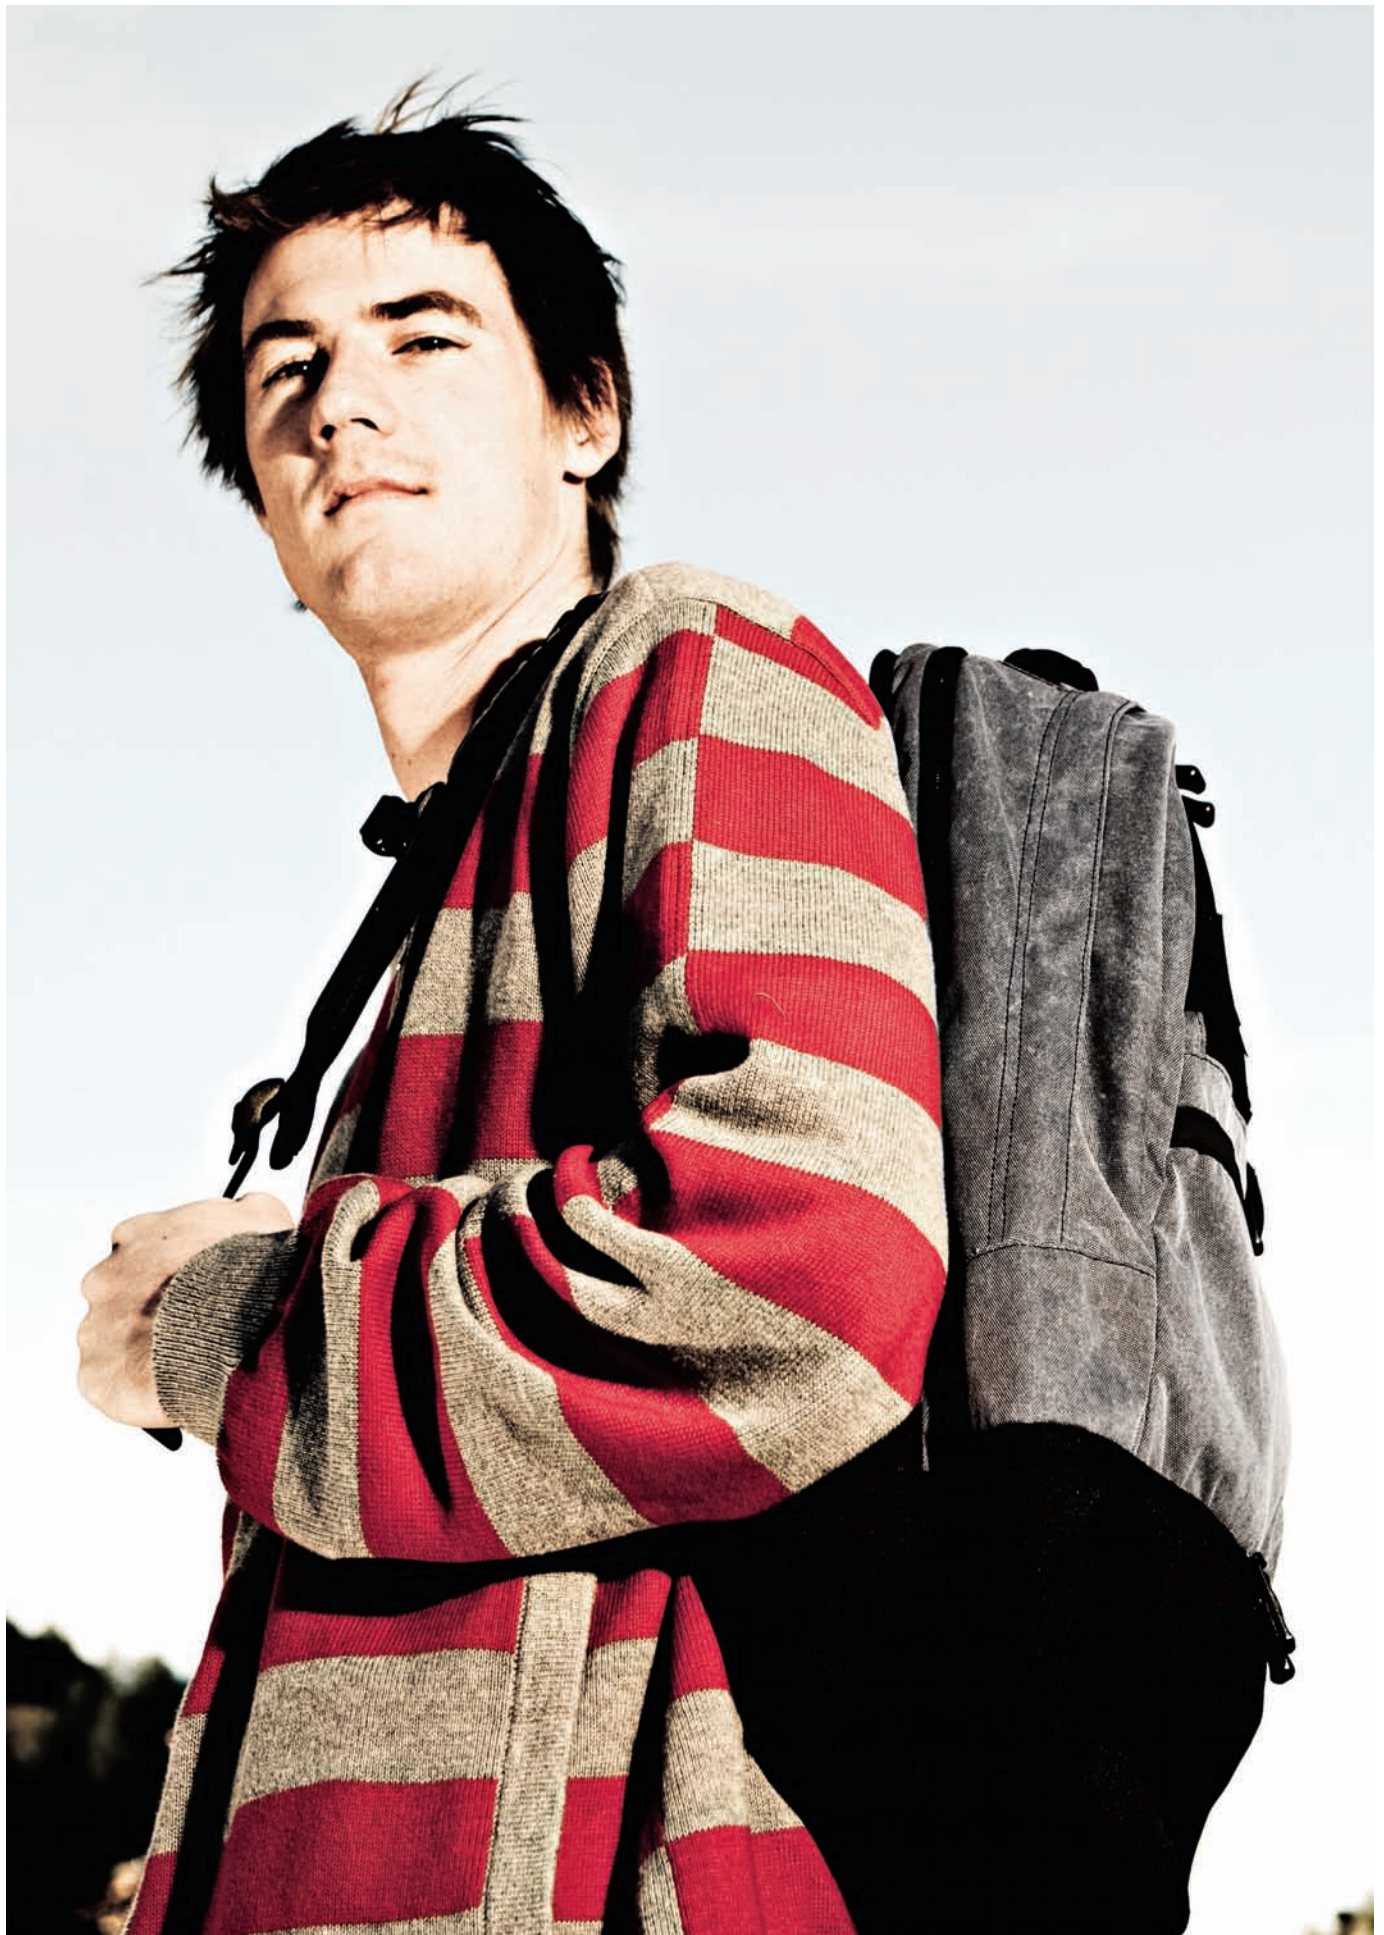

X-Pac™, patented sailcloth technology by Dimension Polyant, combines four layers of fabrics for superior tear resistance, durability and the best strength-to-weight ratio on the market. You'll see this Technology featured on our Red Dawn colorways in Street Packs, as well as our luggage collection.

BURTON

DISTRICT PACKS

A.

DURABILITY

These aren't your average school packs. We approach the development of these bags the same as we do with our snow packs, utilizing the same trims such as YKK™ zippers, high tensile strength fabrics, reinforced stress points and overall superior quality to what's in the market from competitors.

B.

FUNCTION

Emphasis on a variety of features that are offered – from laptop compartments and fleece-lined pockets, to cooler/wet dry pockets and organization for day to day school or work.

C.

STYLE

We offer the best plaids in the business, unique prints, and a progressive palette that makes even our solid colorways stand out. We offer almost every color under the sun, giving consumers more options than they'll know what to do with.

D.

PRODUCT DETAILS

Upgrades, upgrade, upgrades. This season District packs received several feature upgrades, including padded laptop compartments, improved shelf appeal with the addition of foam/structure for a more overall bomber feel, and in the interest of being green, all District Bags are now PVC free.

PADDLED LAPTOP COMPARTMENTS

BURTON

LUGGAGE

A.

DURABILITY

Burton luggage goes through the most extensive testing process out there — year-round use by our team riders. They travel more in three months than most people do in three years, so when developing our custom TPU back panel, custom handle and trolley system, we had no choice but to make it the strongest option in the market.

B.

FUNCTION

It's all about the small details and we've taken every single one into consideration. We offer CRAM™ zones that stretch to accommodate last minute over-packing, IXION™ wheel system with smooth gliding skateboard bearings, clean/dirty dividers, and extras like a removable laptop bag in our Wheelie Flight Deck.

C.

STYLE

There truly is nothing out there like Burton Luggage. We have the creative resources to pull from our progressive outerwear prints, unique bag-exclusive colorways, and hardgood graphic tie-ins that you'll see used as hydrographics on our custom luggage hardware.

D.

COLLECTIONS

Burton offers three collections for your travel needs, ranging from our bomber tried and true Premium Luggage that we have become known for, to our Tech Light Luggage for weight savings and ease of travel, to the launch of Air Series that takes inspiration from our hardgoods roots.
