**SPORTSHOP**

Eddie Bauer Sport Shop is premium hunting and shooting gear. Each item is built, tested, and perfected by our team of renowned guides.

### TEXTILE TRADITIONS

Hunting and tradition go hand in hand, which is why many sportsmen prefer waxed cotton, a timeless waterproofing technique developed more than a century ago by men who fished the icy waters of the North Atlantic.

## NINETY YEARS IN THE MAKING

**Eddie Bauer opened his first Sport Shop in 1920 with one goal:** to outfit the American sportsman and sportswoman in the finest gear. In 2012, we return to this tradition with the introduction of the next generation of men's and women's hunting, fishing, and shooting clothing.

Today's Sport Shop line is the right mix of technology and tradition. It's what Eddie himself would wear today. Each item is built, tested, and perfected by our team of renowned guides. Nothing goes to market without their approval. Born in the field, Eddie Bauer Sport Shop is the newest thinking in design, fit, fabrication, and construction. From the Original Outdoor Outfitter.

## BUILT WITH GUIDES

**Eddie Bauer himself had a long tradition of working with field experts,** which is why we are the only outfitter in the industry who crafts each product exclusively with our team of guides. Every shooting jacket and fishing vest incorporates our guide team expertise and approval.

## GUIDE'S BEST FRIEND

**In 2010, as a return to our roots, we brought home a puppy** in honor of Eddie and his first retriever, Blackie. Born at Sunnyview Labradors in Salem, Oregon on March 24, 2010, Eddie the Dog currently field trains at McKenna Kennels, the same Northwest kennels that trained several of Eddie's dogs in the 1960s and 1970s.

A skilled hunting dog and field competitor, Eddie is our brand ambassador and frequently appears in photo and video shoots. Most days you can find Eddie at our corporate headquarters, serving as the official inspiration of the Sport Shop.

## SPORTSMAN

**At Eddie Bauer, we follow Eddie's original** mantra – if we can't find something better, we will build it ourselves. Every item bearing the Sport Shop shield is:

**Tested** by our guide network and launched with their seal of approval.

**Designed** with all aspects of the field experience taken into consideration: fit, fabric, mobility, comfort, function, style, and safety.

**Built** to last, and last long. This is gear that will be worn by many generations to come.

**Engineered** with the same attention to detail and ingenious spirit that Eddie exemplified patenting America's first down jacket, outfitting the first American to summit Everest, and supplying generations of explorers, hunters, mountaineers, and adventurers from 1920 until today.

## SPORTSWOMAN

**The same thought, attention to detail,** and guide-built expertise that goes into our Men's line also goes into our Women's Sport Shop line. In homage to Stine Bauer, our women's shooting, hunting, & apparel is built to be highly functional and is designed specifically for a woman's fit.
